Submission of an article for publication implies the transfer of the copyright from the author(s) to the publisher and entails the author(s) irrevocable and exclusive authorization of the publisher to collect any sums or considerations for copying or reproduction payable by third parties.

Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the publisher. This transfer will ensure the widest possible dissemination of information.

For Material Subject to U.S. Copyright Law

Special regulations for readers in the U.S.A.

This journal has been registered with the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, U.S.A. Consent is given for copying of articles for personal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per-copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. All articles published prior to 1982 may be copied for a per-copy fee of U.S. $2.50, also payable through the Center. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes or for creating new collective works. Special written permission must be obtained from the publisher for such copying.

ubject Index Volume 9, 1984

RONOMY

tershed rehabilitation program related o the management of river and reservoir sedimentation in Indonesia 146
ntrolling erosion and sedimentation in he Panama Canal watershed 161
nagement of sediment in New South Wales, Australia 169
ysical and economic impacts of sedimentation on fishing activities: Nam Pong Basin, Northeast Thailand 185

ONOMICS

onomics of changes in irrigation management in Pakistan: an integrative modeling approach 66
needed economic framework for flood plain management 119
onomic/institutional issues in sedimentation management in developing countries 165
vate and social cost-benefit perspectives and a case application on reservoir sedimentation management 181
ysical and economic impacts of sedimentation on fishing activities: Nam Pong Basin, Northeast Thailand 185

DUCATION

philosophy and framework for water education 84
ater treatment for rural areas with emphasis on Sudan 112
e role of the sanitary engineer in Sudan 116
ole of watershed management in water resources development planning – need for integrated approach to development of catchment and command of irrigation projects 158

ENGINEERING

"Trap-dams": artificial subsurface storage of water 2
A soil–cement/synthetic membrane liner for hazardous waste impoundments 79
Small-scale gravity flow water systems in Phrae Province, Thailand 136
Sedimentation in New Zealand hydroelectric schemes 172

ENVIRONMENT

Assessment of the environmental effects of constructing the Three Gorge Project on the Yangtze River 10
Human waste disposal and the faecal pollution of the River Niger Delta waters 37
Studies on a selected industrial effluent and the receiving stream 58
Water – the silent messenger between cause and effect in environmental problems 62

HEALTH

Water and health in Africa 51
Water treatment for rural areas with emphasis on Sudan 112
The role of the sanitary engineer in Sudan 116

HYDROLOGY

The 1983 high flows on the Colorado River and their aftermath 99
A real-time flood forecasting technique 127
Reservoir sedimentation in India – its causes, control and future course of action 150
Management of sedimentation in Bangladesh 155

The sedimentation problem in water conservancy in China 177

WATER RESOURCES

Water resource planning and development in the Northern Jordan Valley 18
Water resources of Latin America 26
Pre-management water resources study 72
Modern interferences in traditional water resources in Baluchistan 106
Role of watershed management in water resources development planning – need for integrated approach to development of catchment and command of irrigation projects 158
